

WEST
CONTAINER
TERMINAL

**West Container Terminal –
your competitive advantage**

About us

West container terminal, founded in 2017, is a modern logistic complex for containers transshipment.

WCT, located in Ternopil – a geographical center of Western Ukraine, is equidistant from nearby regional centers.

Terminal infrastructure, specialized equipment and our own transport allow us to load, discharge and deliver containers with different kinds of cargoes.

Regular container trains:

- Ternopil – Pivdenniy – since 2018
- Ternopil – Odessa – since 2020
- Ternopil – Kutno (PCC Intermodal) – since 2021
- Ternopil – Košice (METRANS) – under development

Total Area of the Terminal - **60000m²**

Temporary storage capacity - **2000 TEU's**

Warehouses - **15000m²**

Rails - **4 x 250m**

Reach stackers - **2 x 45t**

Forklifts/telescopic handlers - **5**

Reefer sector - **20 plugs**

PTI, incl. small repairs

Regular blocktrain services

Drop-off of main container shipping lines functioning

Containers repair

Opening Hours **24/7/365**

Regular container trains:

- Ternopil – Pivdenniy – since 2018
- Ternopil – Odessa – since 2020
- Ternopil – Kutno (PCC Intermodal) – since 2021
- Ternopil – Košice (METRANS) – under development

Due to the advantageous geographic position of West Container Terminal it is now possible not only to organize traffic to the ports of the Black Sea (Odessa, Pivdenniy), but also to connect the biggest ports and intermodal terminals of Europe. West Container Terminal in fact connects by means of railway communications terminals of Kutno (Poland) and Košice (Slovakia) with network terminals of Ukraine and Europe and opens great potential for development of intermodal container traffic between Ukraine and European Union.

Transit time – 2 days
Poti (GE)

Services
